

VH46 Glue Gun

PRODUCT DESCRIPTION

The VH46 is a lightweight, professional glue gun with an exceptional adhesive melt rate. Its thin profile guarantees excellent visibility and positioning, allowing precise application of required glue quantity. It has a narrow profile handle and full-hand lever trigger, making it the ideal glue gun for all sized hands.

Equipped with a high quality, self regulating heater, this glue gun maintains temperature control for prolonged use. Features include a silicon rubber nozzle shroud for enhanced safety, open breach area for easy cleaning, and a power "on" indicator light.

APPLICATION INFORMATION

- Used for applications where small quantities of adhesive are required, such as in product assembly, packaging and general use. Also suitable for schools, colleges, and outworkers where safe reliable glue guns are necessary.
- Warm up time: 7 minutes.
- Works best with Venus 12mm Hot Melt Glue Sticks.

PHYSICAL PROPERTIES

Note: The following technical information and data should be considered representative or typical only.

Weight of Unit	230g
Glue Required	12mm stick
Operating Temperature	Approx. 195°C
Melt Rate	Up to 750g/ hour, depending on adhesive formulation
Heater	20-400W (electronically self regulating)
Voltage	100-240V (electronically self regulating)
Power Cable	1.8 metres
